Special Protective Actions for Fire Fighters: in case of insufficient ventilation, wear suitable respiratory equipment.

6. ACCIDENTAL RELEASE MEASURES

Protective Equipment: Avoid inhalation.
Avoid contact with skin and eyes.

Personal Precautions:	Remove all ignition sources and ventilate area. Avoid contact with skin and inhalation of its vapours or smoke.
Emergency Procedures:	No specific advice other than above.
Environmental Precautions:	Keep contained to prevent contamination of drains, soil or ground water. Should not be released into the environment.
To contain a spill:	Dam up.
Methods and Suitable materials for spill containment:	Cover with an inert, inorganic, non-combustible absorbent material (e.g. dry-lime, sand, soda ash) Dispose of according to local regulations. Avoid excessive inhalation of vapours.

7. HANDLING AND STORAGE

Precautions for safe handling:	Use personal protective equipment as required. Keep away from heat, sparks, open flames and hot surfaces. No smoking. Do not eat, drink or smoke when using this product. Follow good manufacturing practices for housekeeping and personal hygiene. Wash any exposed skin immediately after chemical contact, before breaks and meals, and at the end of each work period. Contaminated clothing and shoes should be thoroughly cleaned before reuse.
Measures to prevent fire:	Keep away from heat, sparks, ignition sources and naked flames. No smoking.
Measures to protect the environment:	Dispose of rinse water in accordance to local and national regulations.
Technical measures and storage conditions:	Keep container closed when not in use. Store in a cool, dry, ventilated area away from sources of heat, moisture, and incompatible substances. Protect container from physical damage. Ground/bond container and receiving equipment. Use explosion-proof electrical, ventilating and lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge.

Exposure Controls

Eye Protection	Avoid eye contact. Use safety glasses with side shield or goggles. Use chemical safety goggles and/or a full-face shield where splashing is possible. Maintain eye wash fountain and quick-drench facilities in work area.
Skin Protection	Avoid skin contact. Wear protective gloves /face protection
Respiratory Protection	Ensure adequate and ongoing ventilation is maintained in order to prevent build up of excessive vapour and to ensure occupational exposure limits are adhered to. If appropriate, and depending on your patterns and volumes of use, the following engineering controls may be required as additional protective measures:

- a) Isolate mixing rooms and other areas where this material is used or openly handled. Maintain these areas under negative air pressure relative to the rest of the plant.
- b) Employ the use of Personal protective equipment - an approved, properly fitted respirator with organic vapour cartridges or canisters and particulate filters.
- c) Use local exhaust ventilation around open tanks and other open sources of potential exposures in order to avoid excessive inhalation, including places where this material is openly weighed or measured. In addition, use general dilution ventilation of the work area to eliminate or reduce possible worker exposures.
- d) Use closed systems for transferring and processing this material.
