Adelaide Moulding & Candle Supplies considers all aspects of the IFRA Guidelines and best practice relevant to the referenced product. The maximum use level is based on a safety assessment that considers currently available information, both external and internal, pertaining to raw materials and their properties in addition to any evaluation completed by IFRA.

It is the ultimate responsibility of our customers to ensure the safety of the final consumer product placed on the market.

Adelaide Moulding & Candle Supplies IFRA certificates reference your specific briefed product application(s) as opposed to an IFRA Category. IFRA Category certificates are available upon request if the product specific certificate is not suitable for your use.

According to the IFRA Code of Practice (as reported under the 44th Amendment), due to the potential for certain raw materials to form nitrosamines in nitrosating systems, the presence in the referenced product of any of these substances must be reported to the customer. In accordance with this requirement, we advise you that the referenced product contains

Name	%
Methyl N-methylantranilate	0,0151

Date of creation : 21.03.2022
